Legislative Auditor

The Legislative Audit Division (LAD) is the legislature's eyes and ears on the complex machinery of state government. LAD staff includes Certified Public Accountants reviewing the state's financial activities, and professionals with experience in business operations and management, and public policy ensuring that state programs are running efficiently and effectively. LAD also has tech-savvy staff investigating the state's computer systems to determine whether the data produced is valid, consistent, and protected. We know how much you value accountability, integrity, and transparency in Montana state government. Your staff in LAD are here to protect and promote these values through independent audits, and in-depth research and oversight of the Executive and Judicial branches. Our reports to the Legislative Audit Committee help executive managers, public stakeholders and the legislature as a whole understand and improve government. The work of LAD ensures public funds are accounted for properly, government services are delivered efficiently and effectively, and your statutory directives are followed. The public trust is fragile and strict accountability is its best defense. We are here to put this into action and we look forward to working with you to make this happen.

The Legislative Audit Committee is a bicameral and bipartisan standing and administrative committee of the Montana Legislature. It consists of six members of the Senate and six members of the House of Representatives. The Audit Committee appoints, consults with, and advises the Legislative Auditor. The Audit Committee reviews the audit reports submitted by the Legislative Auditor, releases the audit reports to the public, and serves as the conduit between the Legislative Auditor and the Legislature.

A Message from the Current Audit Committee Chairperson

“The Montana Constitution designates the Legislative Audit Committee as the only committee that must be established, signifying the importance of the Committee. We meet year round, and serve as a watchdog for the people of Montana, verifying that the taxpayer’s dollars are spent wisely, prudently, and according to the Legislature.”

-Representative Randy Brodehl

Recent Performance & Information Systems Audits

Performance Auditor Manager Diedra Murray presenting to the Audit Committee.

From January 2015 to December 2016, LAD issued 16 Performance and Information Systems (IS) audits. In addition, the Committee heard updates on the implementation status (follow ups) for 15 Performance and IS audits; examples of the audits are listed below. All staff at LAD conducting performance and IS audits hold bachelor's degrees in various disciplines appropriate to the audit process; many have master's degrees. Areas of expertise include public administration, business, journalism, accounting, English, and computer science.

Performance audits review and analyze state programs to determine if the programs are achieving the intended results, being conducted efficiently and economically, and in compliance with related statutes and regulations. Performance audits result in recommendations that increase the effectiveness or efficiency of the program.

IS audits examine both general and business process controls associated with an information system. IS audits determine the effectiveness of these controls in ensuring that the information provided by the system or application is complete, accurate, valid, confidential, and readily available.

Recent Financial & Compliance Audits

State law requires LAD conduct a financial and compliance audit of each state agency at least every 2 years. Consequently, from January 2015 to December 2016, LAD issued more than 30 financial and financial-compliance audit reports. Most staff members working on financial-compliance audits at LAD hold a Certified Public Accountant (CPA) license.

Financial and compliance audits are conducted to determine if an agency's financial operations are properly conducted, the financial reports are presented fairly, and the agency has complied with applicable laws and regulations. Financial audits are conducted to determine if the financial statements included in a report from an agency are presented fairly and the agency has complied with laws and regulations having a direct and material effect on determination of financial statement amounts.

LAD also issues a statewide biennial Single Audit Report by the end of March of even-numbered years. The Single Audit work is required for state agencies to receive federal funding. It includes reports on compliance with requirements applicable to select federal programs.

Legislators Request Audits & Research Assistance from LAD

***Any Legislator
may request an
audit of state
government
activity.***

Any member of the Legislature may request the Legislative Auditor audit any activity in state government. In addition to conducting audits, the Legislative Audit Division is a research resource to legislators. The auditor and staff assist the legislature, its committees, and its members by gathering and analyzing information relating to the operations of state government. Commonly referred to as legislative requests, these are generally small projects undertaken to provide members of the legislature with information regarding a specific question or analysis about an agency or program. In Fiscal Years 2015 and 2016, the division completed 41 legislative requests on various topics.

Fraud Hotline Calls

The auditor maintains a toll-free telephone number (1-800-222-4446) and an on-line form for use by Montana residents for the reporting of fraud, waste, and abuse in state government. Any information received concerning a governmental entity other than state government may also be referred by the auditor to an appropriate federal, state, or local government agency. In Fiscal Years 2015 and 2016, the division received 92 hotline calls regarding alleged fraud, waste, and abuse in state government.

In fiscal years 2015 and 2016, in addition to completing more than 40 audits, the Legislative Audit Division received 92 hotline calls from the public regarding possible waste, abuse and fraud in state government, and responded to 41 research requests from legislators for information regarding various operations of state government.

The Montana Constitution on the Legislative Audit Function

Article V, Section 10(4) of the Montana Constitution mandates a legislative post-audit function. The Legislative Audit Act, contained in Title 5, Chapter 13, MCA, establishes the Legislative Audit Committee of the Montana Legislature and the Legislative Audit Division. Managed by a Legislative Auditor appointed by the committee, the division provides the legislature, its committees and its members, with factual and timely information. The intent of the Act is that each agency of state government be audited for the purpose of furnishing the legislature with factual information vital to the discharge of its legislative duties. Per state law, the auditor conducts a financial and compliance audit of each state agency at least every two years. In addition, the auditor selects and prioritizes agencies and programs for audits with consideration given to the agency's or program's financial, operational, and technological risks associated with meeting its intended purpose, goals, objectives, and legal mandates.

What's Down the Road for the Audit Committee?

The membership of the Audit Committee will be determined before the end of the 2017 session. A member of the committee serves until their term of office ends or until a successor is appointed, whichever comes first. The new committee will meet as often as necessary throughout the biennium to review financial-compliance, information systems, and performance audit reports. Public comment is taken after each audit is presented and discussed at Audit Committee meetings. Committee meetings can be viewed as they occur via the Legislative web page; video and audio archives of recent meetings are available also.

Who Audits the Auditors?

Auditing standards set by the U.S. Government Accountability Office (GAO) require a peer review of the Legislative Audit Division every three years. A review team traveled to Montana in June 2014 to evaluate the division's work. They concluded that LAD has suitably designed, and complies with, a system of quality control that provides reasonable assurance the office is performing and reporting in conformity with applicable standards in all material respects. The review team included staff from state audit organizations in Connecticut, Colorado, Oklahoma, Indiana, and Tennessee, as well as the U.S. Department of Health and Human Services. A peer review generally includes a review of audit documentation, review of policies and procedures, and staff interviews. The next peer review of the LAD will occur in 2017.
